Forecast for Saturday 08 Aug 2020

Weather: Fog forming across much of the National park during the early hours, soon lifting on Saturday morning to reveal a generally sunny day with very high UV levels. Perhaps a little high cloud later. Clear periods during the evening.

Chance of cloud free mountain/hill tops above 800m: 10% or less until around 6am, increasing to 30% between 6 and 8am, then steadily improving to 100% by 9 or 10 am.

Visibility: Poor or very poor in fog at first, soon becoming good then very good during the day, with good views of distant hills.

300	16/16	17/15	18/16	18/16	17/17	17/16	17/15
Valley	16/17	17/16	18/16	18/17	17/17	17/16	17/15
Freezing Level*	2700m	2800m	2900m	2900m	2800m	2900m	3000m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Temperatures are likely to climb a little higher in some of the valleys than the table suggests. UV levels will be very high in the sunshine, so sunscreen will be needed.

Forecast for Sunday 09 Aug 2020

Weather: Mist and fog patches possible at first, but soon clearing to leave sunny periods. An increase in high level cloud is possible during the afternoon and evening, with a small chance of a shower breaking out.

Maximum wind: Easterly 7 to 12 mph, with gusts to 15 or 20 mph.

Chance of cloud free mountain/hill tops above 800m: 30% or less in fog patches at first, soon increasing to 100% during the morning. Reducing to 60% later should any showers develop.

Visibility: Poor or very poor in any early fog patches, then becoming very good for the bulk of the day, away from any showers later.

Temperature: **Valleys:** 16 Celsius at first, rising to 23 Celsius during the afternoon.
At 800m: 10 or 11 Celsius at first, rising to 18 Celsius during the afternoon.
Freezing level: Above the summits throughout.

Monday	Early fog patches possible. Some warm strong sunshine during the day, but a risk of some heavy and thundery showers also breaking out. Freezing levels above summits throughout.
Tuesday	Very similar to Monday with early fog patches possible, then warm sunshine and scattered heavy, thundery showers.
Wednesday	Breezier than on Monday and Tuesday, otherwise little change with warm sunshine and scattered thundery showers.
